Dear Hank,

Plans are continuing to be developed for the NASA Education Workshop for Native American Teachers that will be held this summer at NASA Ames in California. I appreciated your visit a few weeks ago and the opportunity to brief you on the workshop. In addition, the information you brought about your current programs with Native Americans was very interesting. I'm sure that we will be able to continue to collaborate on these joint areas of interest and it will be great to have a 5-member team from Nebraska attend the workshop.

We're looking forward to working with you on these projects!

- Liza
